Designing a Shrine for a Saint

The shrine, for Saint Mother Theodore Guerin represents her journey from France to Saint Mary's-of-the-Woods, Indiana. It begins with a room telling of her time spent in France, a ship room telling the story of her arduous voyage across the Atlantic Ocean in 1840, and an exhibit area filled with details of Saint Mother Theodore's life and ongoing legacy of the order she founded.

It has been an incredible opportunity for me personally, spiritually and as a designer.

Exploring with Google Glass

After a quick workshop by Juergen, our Google Glass, a wearable technology with a hands-free, voice activated, head-up display, resembling standard eyeglasses, received a new life at Milwaukee Center for Independence.
